

# Join and get Connected

"The world's largest network of forest products professionals."

Forest Products Society leads the way for all segments of the forest products industry — from standing tree to finished product. We are leading the international exchange of scientific discoveries, innovation and technical knowledge. FPS supports professional development, knowledge sharing, networking and enables members to actively participate in the industry.

-  Deepen your Knowledge
-  Explore Networking Opportunities
-  Expand your Research
-  Connect Globally to other Professionals

# Welcome to FPS Membership

No matter where you are in your career — a student, recent graduate, seasoned professional — there's an FPS membership level for you.

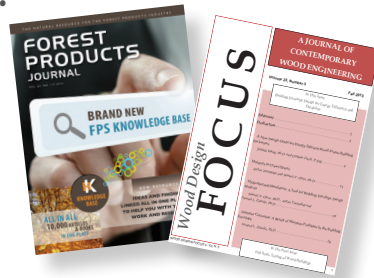

The Forest Products Society is an international not-for-profit technical association that provides an information network for all segments of the forest products industry.
